FASTMOUNT
PANEL MOUNTING SOLUTIONS

Marine panel mounting solutions

Marine environments present unique challenges for panel mounting. Vibration, moisture and humidity, and structural movement can cause conventional fastening systems to fail. This can result in loose panels, difficult access to critical systems, and compromised aesthetics.

Fastmount's marine panel fasteners are engineered to overcome these challenges, providing secure, removable panels that maintain alignment. Our solutions ensure boat panels remain secure while allowing quick access for maintenance. That means more time out on the water for you.

BENEFITS

- Durable, reliable and reusable
- Quick Panel Removal
- Perfect Alignment, even on curved or complex surfaces.
- Easy Installation
- Engineered to perform reliably in harsh marine environments.

APPLICATIONS

- Walls and Deckheads in all boats
- Access and removable panelling
- Boat cabinetry
- Secure cushions in place

Perfect Alignment

Easy Installation

Easily Removed

Access panels

Effortless maintenance with non-sequential panel removal and perfect alignment every time.

Curved walls

360 degree adjustability for seamless contours, eliminating panel distortion in curved applications.

Complex geometries

Precision alignment for intricate designs with hidden fastening that preserves the aesthetics of your vessel.

Hold cushions

Secure yet easily removable textile fastening that prevents shifting while allowing simple maintenance and cleaning.

Deckheads

Vibration-resistant mounting for perfect ceiling alignment even in rough marine conditions.

Upholstered panels

Hidden fixings for flawless, damage-free surfaces that maintain clean lines and beautiful aesthetics.

STANDARD PC RANGE
